

# On the Job Training (**OJT**) Workshops

Finance & Accounting

**We Build Professional Career...**

## Simulation For Real-life Work Experience

### How **OJT** Training brings you value?

**OJT** is a hands-on method of coaching the skills, knowledge, and competencies needed for you to perform a specific job within the workplace and increase your finance and accounting knowledge.

**OJT** helps you learn the multinational workplace style in an environment where you can practice the knowledge and skills obtained for your dream career.

## ■ On the Job Training (**OJT**) Workshops Finance & Accounting

## Benefits of the Program

**OJT** finance and accounting helps you to change your style from **Local style** to the **Multinational one**.

- **Skills Development**

Help you to upgrade your skills to match the multinationals' standards & needs and show your way to achieve your goals.

- **Ready For The Multinational Market's Needs**

We help you applying your knowledge practically to penetrate **the multinational workplace** and fit your dreaming position immediately and help you to make your way towards your dream job as smooth as your dreams are.

- **Get Promoted**

**OJT** helps you to increase your chance of being promoted or start a new position in Finance or Accounting field.

- **Save Efforts, Money & Time**

It's great when you finish your practices and get out into the real world with a degree under your belt.

**AASC** has 30+ years of experience in financial services so you will be trained by professional instructors in Finance & Accounting to be one of the top accountants in the professional market.

**1. Analysis:**
